CCR No. <u>98-0262</u>	Logged Date <u>3/2/98</u>	Rev. <u>—</u>	Request Type <u>CCR</u>
Priority Routine <input type="checkbox"/> Urgent <input checked="" type="checkbox"/> Emergency <input checked="" type="checkbox"/>	Affected Release		Change Class <u>IN</u>
Title (description) International Math and Statistics Library Port to IRIX 6.2, N32-bit.			
Documents Affected		Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference SDP Toolkit Requirements Specification for the ECS Project SDP Toolkit Users Guide for the ECS Project	
RTM Change <input type="checkbox"/> Start New Baseline <input type="checkbox"/>			
Problem The SDP toolkit is required to provide math and statistics libraries to EOS instrument team developers. IMSL, a product of Visual Numerics, Inc. was chosen as the COTS to fulfill the requirement. Instrument team code must run on ECS science processors. Release B.0 of ECS will use SGI Irix 6.2 or 6.4 operating systems. These operating systems include the new 32-bit mode. Visual Numerics has no current plan to port IMSL C and FORTRAN libraries to the new-32 bit mode. Instrument teams (MISR and MODIS) need the port as soon as possible in order to develop their launch-ready software.			
Proposed Solution EDS has obtained the source for C and FORTRAN IMSL libraries. The source code needs to be installed in the development environment. Binary executables for n-32 bit mode need to be installed on relbsgi. Note that old 32-bit and 64 bit binaries are already installed on relbsgi. Revision (3/2/98): Install new 32 IMSL libraries on Comanche (EDF) and on Lasher (mini-DAAC). (relbsgi no longer exists) <u>NEED DATE: 3/4/98</u>
